

The Federal Communications Commission

Dear The Federal Communications Commission,

To Whom it May Concern,

I oppose the proposed flat tax increase that stands to unfairly raise the cost of residential phone service. I urge you to reject a flat fee proposal that would change how contributions are made to the Universal Service Fund.

Residential customers who place fewer long distance calls should not have to bear the same universal service fund burden as high-volume residential or business customers.

As a senior citizen on a fixed income, I use my wireless phone for safety, security and convenience. My concern is that the proposed increase could make my current service unaffordable. Please reject the proposal to move the USF collection system to a flat-fee and support the FAIR SHARE PLAN.

Sincerely, Marcia McGuirl 562 Lantern Walk Valparaiso, IN 46385

Sincerely,

Marcia McGuirl
